Non-contact voltage tester Voltfix and Magno-Voltfix

- Reliably displays voltages from 12 V AC
- Two selectable voltage ranges/sensitivity levels
- The white tip forms a bright, all-round signal display
- Acoustic display via integrated tone generator
- Automatic time-controlled switch-off
- Splash-water-protected, robust housing
- Slim, insulated measuring sensor suitable for EU, UK and US electrical sockets
- Measurement category CAT IV 1000 V
- Integrated torch
- Suitable for aircraft information systems up to 400 Hz
- Electric fields are displayed in red
- On/Off switch with visual display
- Battery monitoring with visual warning

Cable detective

Test instrument for mains copper cables, for discovering connection faults in customised data cables and complete installations. All coaxial connections with BNC/TNC connectors, USB cables and all UTP/STP cabling with 6 or 8 pin modular plugs can be checked in seconds for wire breaks, pin assignment and short circuits, both for individual conductors and for shielding. With visual (LED) and acoustic error signals. The "Cable Detective" reduces the tedious, fraught and expensive search for cable faults to a minimum. Even longer cables laid up to 200 m can be tested by a single person. In a practical belt bag, for 9-Volt E-block battery, with comprehensive operating instructions.

**Voltage tester Drei-Ve**

The new voltage tester from CIMCO simply sits better in the hand due to the innovative triangular handle.

The Drei-Ve voltage tester has an ergonomically shaped triangular handle in transparent, impact-resistant plastic.

The curved vertical contour allows the best possible contact pressure and the appropriately shaped holding clip on the handle will secure it to a shirt or overall pocket. The voltage tester is manufactured to meet the latest DIN

standards and VDE/GS tested.
