

## CECHY I KORZYŚCI

taśma dla aplikacji z zalecanym czarnym kolorem komponentów

podwyższona odporność na UV w stosunku do taśm TK

## DANE MECHANICZNE

|                               |              |
|-------------------------------|--------------|
| Materiał                      | poliamid 6.6 |
| Halogen Free                  | tak          |
| Kolor                         | czarny       |
| Temperatura pracy [°C]        | -40 ÷ +85    |
| Temperatura krótkotrwała [°C] | +110         |
| Temperatura montażu [°C]      | 0 ÷ +60      |

## CERTYFIKATY I NORMY

|                |             |
|----------------|-------------|
| Klasa palności | UL 94 V2    |
| Normy          | PN-EN 62275 |

| Typ                         | Indeks Ergom      | Siła zrywająca minimalna [daN] | Ø max wiązki [mm] | Typ narzędzia                        | L       | W    | Dostępne opakowania [szt.] |
