## SO34.250

| Name:        | Tension clamp   |   |
|--------------|---|---|
|              | 2x50 mm <sup>2</sup>  |   |
| Туре:        | SO34.250  |   |
| EAN:         | 6418677404672   | 0 |
| Description: | Used for the tensioning of 4-core LV ABC line. The plastic parts are made of special fibreglass reinforced plastic and the aluminium parts are made of weather resistant aluminium alloy. |   |
| Package:     | 15/945  |   |
| Unit:        | PCS   | 5 |

## **Technical specification**

| Electrical values  |                      |  |  |
|--------------------|----------------------|--|--|
| Test voltage       | 4 kV / 50 Hz / 1 min |  |  |
| Mechanical         |                      |  |  |
| SMFL               | 15.2 kN              |  |  |
| Tightening torque  | 48 Nm                |  |  |
| Dimensions         |                      |  |  |
| Weight             | 0.785 kg             |  |  |
| Features           |                      |  |  |
| For conductor size | 2 x 50               |  |  |
