

## Circuit-breaker, 3p, 200A

Part no. NZMN2-M200 Article no. 265725

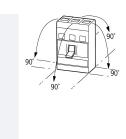

Similar to illustration

Dolivery programme			
Delivery programme			0
Product range			Circuit-breaker
Protective function			Motor protection
Standard/Approval			IEC
Installation type			Fixed
Release system			Thermomagnetic release
Construction size			NZM2
Description			Tripping class 10 A IEC/EN 60947-4-1, IEC/EN 60947-2
			The circuit-breaker fulfills all requirements for AC-3 switching category.
Number of poles			3 pole
Standard equipment			Screw connection
Switching capacity			
400/415 V 50/60 Hz	I <sub>cu</sub>	kA	50
Rated current = rated uninterrupted current	$I_n = I_u$	Α	200
Setting range			
Overload trip			
中	I <sub>r</sub>	А	160 - 200
Motor rating AC-3 50/60 Hz			
380 V 400 V	P	kW	110
Motor rating AC-3 50/60 Hz			
400 V	P	kW	110
Rated operational current AC-3 50/60 Hz			
400 V	I <sub>e</sub>	Α	196

## **Technical data**

General

donorui			
Standards			IEC/EN 60947
Protection against direct contact			Finger and back of hand proof to VDE 0106 Part 100
Climatic proofing			Damp heat, constant, to IEC 60068-2-78 Damp heat, cyclic, to IEC 60068-2-30
Ambient temperature			
Ambient temperature, storage	o	°C	- 40 - + 80
Operation	o	°C	-25 - +70
Mechanical shock resistance (10 ms half-sinusoidal shock) according to IEC 60068-2-27	ğ	g	20 (half-sinusoidal shock 20 ms)
Safe isolation to EN 61140			
Between auxiliary contacts and main contacts	١	V AC	500
between the auxiliary contacts	١	V AC	300
Weight	k	kg	2.345
Mounting position			Vertical and 90° in all directions

With residual-current release XFI:
- NZM1, N1, NZM2, N2: vertical and 90° in all directions

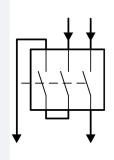

with plug-in adapter elements
- NZM1, N1, NZM2, N2: vertical, 90° right/left with withdrawable unit: - NZM3, N3: vertical, 90 ° left

- NZM4, N4: vertical
- with remote operator:
   NZM2, N(S)2, NZM3, N(S)3, NZM4, N(S)4: vertical and 90° in all directions

	directions
Direction of incoming supply	as required
Degree of protection	
Device	In the operating controls area: IP20 (basic degree of protection)
Enclosures	With insulating surround: IP40 With door coupling rotary handle: IP66
Terminations	Tunnel terminal: IP10 Phase isolator and strip terminal: IP00
Other technical data (sheet catalogue)	Weight Temperature dependency, Derating Effective power loss
Circuit brookers	

Circuit-breakers			
Rated current = rated uninterrupted current	$I_n = I_u$	Α	200
Rated surge voltage invariability	$U_{\text{imp}}$		
Main contacts		V	8000
Auxiliary contacts		V	6000
Rated operational voltage	U <sub>e</sub>	V AC	690
			1) Details apply for 3 pole system protection circuit-breaker with thermomagnetic release NZMN(H)1(2)(3)-A to 500 A.  For rated operating voltage switching via 3 contacts:  DC correction factor for instantaneous release response value: NZM1: 1.25, NZM2: 1.35, NZM3: 1.45  Set value for I <sub>i</sub> at DC = set value I <sub>i</sub> AC/correction factor DC

Switching of one pole

Switching of one pole via three series contacts

Overvoltage category/pollution degree			III/3
Rated insulation voltage	$U_{i}$	V	1000
Use in unearthed supply systems		V	≦ <sub>690</sub>

#### **Switching capacity**

### **Design verification as per IEC/EN 61439**

Technical data for design verification			
Rated operational current for specified heat dissipation	In	Α	200
Equipment heat dissipation, current-dependent	P <sub>vid</sub>	W	48
Operating ambient temperature min.		°C	-25
Operating ambient temperature max.		°C	70
EC/EN 61439 design verification			
10.2 Strength of materials and parts			
10.2.2 Corrosion resistance			Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures			Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat			Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects $$			Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation			Meets the product standard's requirements.
10.2.5 Lifting			Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact			Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions			Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES			Does not apply, since the entire switchgear needs to be evaluated.

10.4 Clearances and creepage distances	Meets the product standard's requirements.
10.5 Protection against electric shock	Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components	Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections	Is the panel builder's responsibility.
10.8 Connections for external conductors	Is the panel builder's responsibility.
10.9 Insulation properties	
10.9.2 Power-frequency electric strength	Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage	Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material	Is the panel builder's responsibility.
10.10 Temperature rise	The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.12 Electromagnetic compatibility	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.13 Mechanical function	The device meets the requirements, provided the information in the instruction leaflet (II) is observed

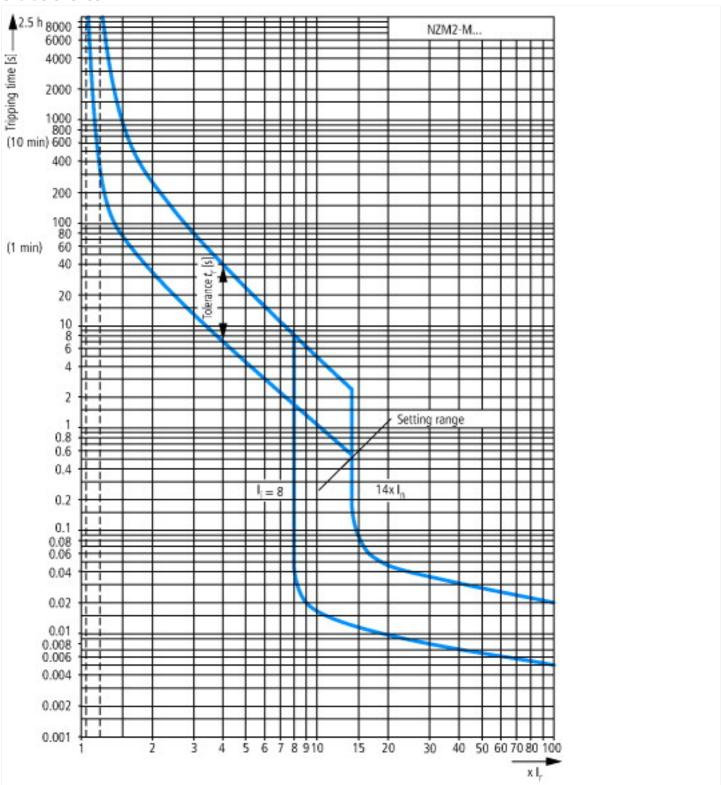

#### **Technical data ETIM 6.0**

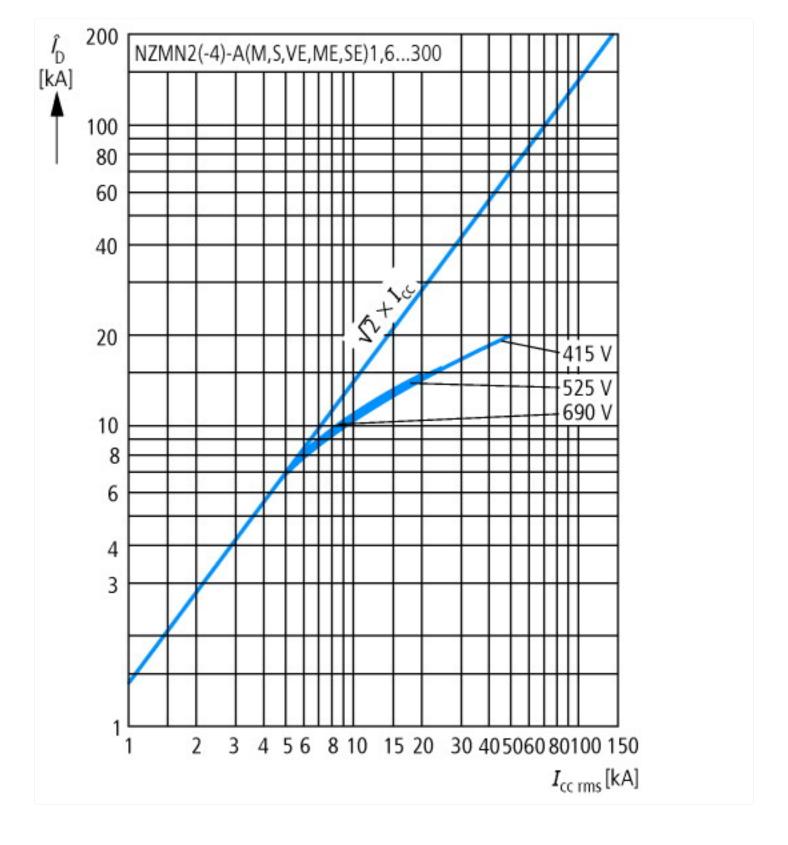

Low-voltage industrial components (EG000017) / Motor protection circuit-breaker (EC000074)

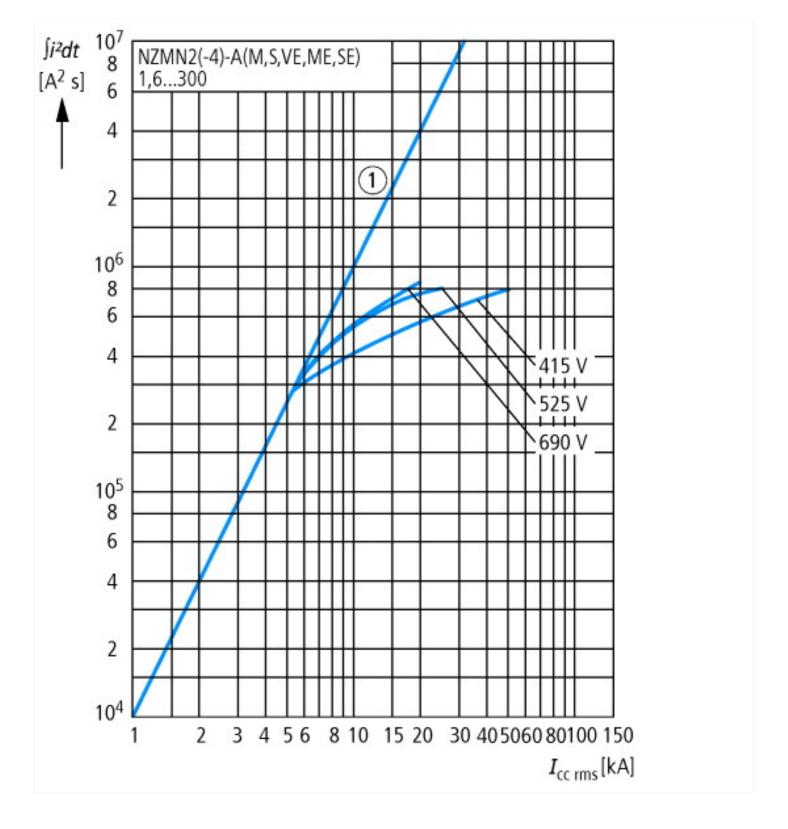

Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Motor protection circuit-breaker (ecl@ss8.1-27-37-04-01 [AGZ529013])

Overload release current setting	Α	160 - 200
· ·		
Adjustment range undelayed short-circuit release	Α	1600 - 2800
Thermal protection		No
Phase failure sensitive		No
Switch off technique		Thermomagnetic
Rated operating voltage	V	690 - 690
Rated permanent current lu	Α	200
Rated operation power at AC-3, 230 V	kW	55
Rated operation power at AC-3, 400 V	kW	110
Type of electrical connection of main circuit		Screw connection
Type of control element		Rocker lever
Device construction		Built-in device fixed built-in technique
With integrated auxiliary switch		No
With integrated under voltage release		No
Number of poles		3
Rated short-circuit breaking capacity Icu at 400 V, AC	kA	50
Degree of protection (IP)		IP20
Height	mm	184
Width	mm	105
Depth	mm	149
